"Skill Enhancement and Simulation Workshop"

Empowering Clinicians & Beyond

11/10/2026

8:30 AM
4:30 PM

Woodbine Restaurant
Manjeri

Organised by:

Woodbine Restaurant, MANJERI

Supported by:

Emergency Department, **Meitra Hospital, Calicut**

“Why do you want to attend?”

Medical emergencies are inevitable, and timely intervention can save lives. Equipping oneself with both basic and advanced life-saving skills is crucial for medical practice. This workshop instructs participants in 10 essential life-saving techniques and empowers them to apply these skills effectively in various critical situations. All training stations are conducted by experts in the field, featuring hands-on training and case scenario simulations using manikins and moulages.”

Course director:

Dr. Venugopalan PP

(Chair & Lead Consultant
Dept of Emergency Medicine
Meittra hospital, Calicut)

Course Coordinators:

Dr Shafin Farhan PV

Dr Ali Maswoon

Highlights

- No lectures

- 5 Moulage simulation stations enabling you to manage life saving situations including Cardiac arrest, Polytrauma, Pediatric emergency and Stroke.
- Total number of seats: 40 only (Pre registration is mandatory)

Who can attend?

PG residents, General duty Doctors, House surgeons

8.30 am - 9.00am : Registration
9.00 am - 12.30pm : Morning sessions
5 Main Stations with 2 Substations in Each

Categories

Group of 8-10 Participants in each group
Duration of each Main Station: 40 minutes

Station 1 : A- AIRWAY

Group A : Basic airway, SAD

Group B : Intubation

Station 2 : B- BREATHING

Group A : Surgical airway, BMV

Group B : ICD

Station 3: C- CIRCULATION

Group A: IV access

Group B: I/O access, Pelvic binder, Tourniquet, Splints

Station 4: D-DISABILITY

Group A: Helmet removal, C- Spine stabilisation, Log roll

Group B: GCS assessment, BEFAST in stroke

Station 5: EFAST

12.30 pm -1.30 pm : Lunch break

1.30 pm - 4.10 pm : Evening sessions

5 main stations

Group of 8 - 10 participants in each group

Duration of Each Main Station: 30 minutes

Tea Break: 10 minutes in between

Station 1 : Poly trauma simulation

Station 2 : Cardiac arrest simulation

Station 3 : Paediatric emergencies simulation

Station 4 : Acute Stroke simulation

Station 5 : ED Tour - Decision, dynamics and destination care

4.10 pm - 4.30 pm: Certificate Distribution & Feedback Session
